NATIONAL TRANSPORTATION SAFETY BOARD

49 CFR Part 800

Organization and Functions of the Board and Delegations of Authority

AGENCY: National Transportation Safety Board.

ACTION: Final rule.

SUMMARY: This revision corrects an inadvertent omission. By Federal Register notice published November 30, 1995 (60 FR 61487), the Safety Board revised a number of its organizational descriptions, including 49 CFR 800.2(g). The Board inadvertently failed to indicate in that rule that the Office of Surface Transportation Safety also conducts investigations concerning hazardous materials accidents. This notice corrects that omission.

DATES: The new rule is effective on April 2, 1996.

FOR FURTHER INFORMATION CONTACT: Jane F. Mackall, (202) 382-6540.

SUPPLEMENTARY INFORMATION: Effective January 2, 1996, and to reflect current practice, the Safety Board updated the

description of its organization and the delegations of authority that are published at 49 CFR Part 800. Unintentionally, the newly adopted paragraph at Part 800.2(g) did not reflect the responsibility of the Office of Surface Transportation to investigate accidents involving hazardous materials. This notice corrects that omission.

List of Subjects in 49 CFR Part 800

Authority delegations (Government agencies), Organization and functions (Government agencies).

Accordingly, 49 CFR Part 800 is amended as set forth below.

PART 800—ORGANIZATION AND FUNCTIONS OF THE BOARD AND DELEGATIONS OF AUTHORITY

1. The Authority citation for Part 800 continues to read as follows:

Authority: Independent Safety Board Act of 1974, as amended (49 U.S.C. 1101 *et seq.*); Federal Aviation Act of 1958, as amended (49 U.S.C. 40101 *et seq.*).

2. Section 800.2 is amended by revising paragraph (g) to read as follows:

§ 800.2 Organization.

* * * * *

(g) The Office of Surface Transportation Safety, which conducts investigations of highway, railroad, pipeline, marine, and hazardous materials accidents within the Board's jurisdiction; prepares reports for submission to the Board and release to the public setting forth the facts and circumstances of such accidents, including a recommendation as to the probable cause(s); determines the probable cause(s) of accidents when delegated authority to do so by the Board; initiates safety recommendations to prevent future surface transportation accidents; participates in the investigation of accidents that occur in foreign countries and involve U.S.-registered vessels; and conducts special investigations into selected surface accidents involving safety issues of concern to the Board.

Pacific Coast Groundfish Fishery; Designation of Routine Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS announces regulations to designate certain management measures as "routine" in the Pacific coast groundfish fishery off Washington, Oregon, and California. Once management measures have been designated as routine, they may be modified after a single meeting and recommendation of the Pacific Fishery Management Council (Council). Such action is authorized under the Pacific Coast Groundfish Fishery Management Plan (FMP) and is intended to provide for responsive inseason management of the groundfish resource.

EFFECTIVE DATE: May 2, 1996.

FOR FURTHER INFORMATION CONTACT: William L. Robinson at 206-526-6140, or Rodney R. McInnis at 310-980-4030.

SUPPLEMENTARY INFORMATION: The FMP authorizes the designation of certain management measures as "routine." Routine management measures are specific for species, gear types, and purposes. Implementation and adjustment of those routine measures may occur after consideration at a single Council meeting, approval by NMFS, and announcement in the Federal Register. Adjustments must be within the scope of the analysis performed when the management measure originally is designated routine. This final rule makes additional routine designations, as follows: (1) Trip limits for all groundfish species, separately or in any combination, taken with open access gear; and (2) in the limited entry (or open access) fisheries, trip and size limits for lingcod, and trip limits for
